

# CLEARTEC™ PASSIVE SKIMMER

ClearTec™ is the only manufacturer of Passive Skimmer technologies utilizing the award winning RUBBERIZER® Filter Media to filter oil, gas, grease, total suspended solids (TSS), and phosphates. ClearTec™ technologies are the global leader in stormwater compliance and filtration systems which is why 9 out of 10 storm drain systems OEM our filters. The RUBBERIZER® Filtration Media is the only Fully Sorbent Solidifier™ to transform oil, gas, and grease into a rubber-like solid on contact and is easily disposed of as a non-hazardous material once fully sorbed.

The ClearTec™ Passive Skimmer is a universal fit technology that allows you to treat your compliance issues directly at the storm drain, basin, and vault.

### BENEFITS:

- Cost Effective **Compliance**
- Large capacity for Oil, Gas, Grease, TSS, and Phosphates
- Universal Fit
- No Leaching
- Non-Clogging Filtration
- Individual Drain Protection
- Vault Protection
- Easy to Deploy and Retrieve
- Cost Effective Compliance
- Sheen Remediation

### FEATURES:

- RUBBERIZER® Filter Media
- Solidification of liquid waste
- 2 gallons\* of adsorption capacity
- Water Repellent
- Drain protection
- Full buoyancy when saturated
- Attachment clips
- Tethering ability
- Free floating
- 22"x15"x2"

\*Based upon testing and field use. May vary due to customer conditions, oil types, or other factors.
